NUMBER 274.

YELLS LIKE A STUCK PIG FOR HIS 10 CENTS

Man Who Gave Out Graft Money in Smoky City Tells of Council Member's Demands.

OFFERED \$81, BUT INSISTED ON \$81.10

Prominent Bankers Said to Be in the Mire and Near To Probe.

PITTSBURG, March 22.—Nine more of the former members of the council went before the district attorney today and confessed their guilt in accepting money for their votes while members of municipal bodies, and before Judge R. S. Fraser received the "immunity bath" of a suspended sentence. When the grand jury adjourned for the day, just before 5 o'clock, it had returned no indictments, although it had listened for hours to developments in the bribery scandal even more sensational than those brought out yesterday. Men admitted selling their honor for from \$50 up. John P. Klein was before the grand jury the greater part of the day and continued his narrative of councilman's graft. Klein recounted some of his experiences in handing out money to councilmen.

"There was one fellow," he said, "who was a daisy—a regular shyster for the dough. He is in South Seventh street in business. I handed him \$81 instead of \$81.10. He looked at me for a full minute and then yelled like a stuck pig for the extra 10 cents. You know, \$81.10 was the standard price in that deal. 'Well, he got the 10 cents all right.'"

District Attorney Blakeley as soon as the councilmen bribe-askers have been rounded up, will go after the bribe givers. These are said to be bank officials, whose names have never heretofore been mentioned in connection with the graft probe of the last two years. The tip has been passed to these bank men that they may come under the "immunity" proposition extended by the district attorney, but as they have thus far failed to avail themselves of the opportunity, it is reported that some bombshell will be dropped into several structures of the city, and prominent men brought before the bar of justice.

There is a feeling that what has been accomplished thus far is but the scratching of the surface. Twenty have confessed, thirty-seven been indicted, but not yet confessed, sixteen have been implicated, but not yet indicted. It is said at the district attorney's office that before the grand jury is dismissed fully 100 persons will have been implicated. These will include not only the bribed, but the bribers.

GEORGE HOLLAND IN COAST HOSPITAL

BISBEE BOY ARRIVES AFTER A LONG TRAMP, SEVERELY ILL WITH ASTHMA.

LOS ANGELES, March 22.—Suffering with asthma so severely that he could hardly walk, George Holland, a 15 year old boy, who ran away from his home in Bisbee to ship aboard some vessel at San Francisco, was picked up at San Pedro today and taken to a hospital.

Holland is sickly, but he said that his brothers in Bisbee had heard and cuffed him so he determined to get a job on a ship to make sure to get away from there. All his life he had been passed upon the desert, but he set out bravely in spite of his ailment. He stole rides on trains and tramped along as best he could until he arrived at Los Angeles yesterday, two weeks after leaving home. Here he heard of the harbor of San Pedro and it dawned on him he need not go to San Francisco to find a ship.

CHICAGO LIVE STOCK. CHICAGO, March 22.—Cattle, receipts 3,000; market strong. Beves, 5.70 to 5.75; Texas steers, 5.90 to 6.40; Western steers, 5.90 to 6.90; stockers and feeders, 5.75 to 6.70; cows and heifers, 2.80 to 7.15; calves, 8.25 to 9.50. Sheep, receipts, 12,000; market steady. Natives, 5.50 to 5.75; westerns, 5.75 to 5.75; yearlings, 5.90 to 9.25; lambs, natives, 8.75 to 10.95; westerns, 9.50 to 10.00.

PINCHOT GOES FOR MEETING WITH EX-CHIEF

Former Forester Three Days Out on the Ocean Before Washington Realizes What Happened.

WASHINGTON, March 22.—Washington today woke up to the fact that Gifford Pinchot, whom President Taft recently removed from the position of chief forester of the United States, was on the ocean already three days out, on the steamer President Grant, on his way to meet ex-President Roosevelt, probably at Naples. Mr. Pinchot is due at Hamburg next Monday. Col. Roosevelt is to arrive at Naples on the following Saturday. The widely current rumor here is that Mr. Pinchot goes to meet the returning traveler, in compliance with a summons received by cable Friday.

It is taken for granted the ex-president will receive from the deposed chief forester, with whom he was on peculiarly intimate terms, his first direct information bearing on any of the principals in that dispute. It is rumored here that the day that Root became a member of the investigating committee and secretary of state in the Roosevelt cabinet, had written to Mr. Roosevelt at Khartoum on the subject. Root would not talk about the matter, and no confirmation of the rumor was obtainable from any other source. If it were true, it might afford at least a partial reason for the supposed cablegram to Mr. Pinchot. Mr. Pinchot's friends here scoff at the suggestion that he would quit the investigation of the controversy in which he is so deeply concerned on the eve of Hallinger's testimony, in order to seek an unwanted interview with the ex-president. On the other hand, those who know Mr. Roosevelt say he is too astute a politician not to realize that to give Pinchot an unsought hearing before he had an opportunity to discuss the matter with President Taft or some member of the cabinet, would be generally recognized as a direct slap at the administration which he would naturally feel bound to support.

ENGINEER, FIREMAN BURNED.

BAKERSFIELD, March 22.—Fireman Dickerson and Engineer Sornberger were seriously injured by an explosion of a boiler on a Santa Fe freight engine at Caliente this evening. They were brought here. The skull of the fireman is fractured and he is fearfully burned. He will probably die. The engineer has a chance to recover.

POLICE STOP MATCH.

KANSAS CITY, March 22.—After Dr. Roller of Seattle and Zbyzskow the Pole had wrestled for two hours and seventeen minutes without a fall tonight, the match was stopped by the police.

ALL DANGER OF ENGINE STRIKE HAS VANISHED

Difficult Points at Issue Between Firemen and Roads Disposed of and Wage Question to Be Arbitrated.

CHICAGO, March 22.—According to announcement tonight, 27,000 firemen of western railroads and the railroad managers will arrange a mode of adjustment of their differences by tomorrow night. This will dispose of the technical points regarding representation and seniority, and will leave the wage dispute open to arbitration.

Switchmen Get Increase.

CHICAGO, March 22.—An increase of three cents an hour to switchmen and \$5 a month to switch tenders and townsmen on several railroads is granted in the decision of the federal arbitration board announced here today. The increase is retroactive, going into effect February 10, 1910, on the following railroads, which became involved in wage controversy with the Switchmen's Union of North America: Chicago and Eastern Illinois, Chicago and North Western, Chicago Great Western, entire system except Twin Cities district; Chicago Rock Island and Pacific, entire system except Inver Grove, Minn.; Terminal Transfer Railroad, entire system; Lake Shore and Michigan Southern, yards only; Michigan Central, west of the Detroit river; Pere Marquette, entire system; Wisconsin Central, Chicago switching district.

The advance is justified by the arbitration board on grounds of increased cost of living.

Vote Favors Strike.

NEW HAVEN, Conn., March 22.—The ballot of the conductors and trainmen on the New York, New Haven and Hartford system on the question of striking in case agreement on the wage question with the company cannot be reached is overwhelmingly affirmative. Total cast: was 2884; 5758 for strike, 86 against.

NEW RAILROAD CONTRACTS.

DENVER, March 22.—The Times says the Denver and Gulf railroad, which is believed to be a Rock Island project, has signed contracts which will require construction of 250 miles of road before July 1, 1911, and it is learned from an official source that the road for the entire distance from Dallas to Denver will be completed and in operation within two years.

DEMOCRAT WINS.

BROCKTON, Mass., March 22.—The total vote for congress in the special election in the Fourteenth District today was as follows: Eugene N. Foss, Boston (democrat), 14,989; Wm. R. Buchanan, Brockton (republican), 9,340.

SMITH HAS BUT SMALL HOPES OF STATEHOOD

Former Delegate Returns to Home in Tucson With Clear Story of the Measure's Chances.

SENATE WILL BE KEPT ON OTHER BUSINESS

House Soon to Send Big Bills Over to Further Delay the Arizona Bill.

(Special to Review.) TUCSON, Ariz., March 22.—That the leaders of the republican party were strongly opposed to the passage of the statehood bill for Arizona, but that he was still hopeful of the ultimate result, was the statement of Hon. Mark Smith, former delegate to congress, who returned from Washington late this afternoon. Mr. Smith has been in the capital with a view of urging the passage of the statehood bill, and his years of experience in the nation's seat of government enable him to speak with authority on the subject, hence his statements will be heard with interest.

He declared to a Star reporter last night that while the republicans were endeavoring to crowd out statehood legislation with appropriation bills in the senate, he was still hopeful that in the fall amendment or defeat of at least one of President Taft's measures the statehood bill may be given an opportunity. His interview in full follows:

"If the statehood bill now pending before the United States senate comes to a final vote, I am positive that it will pass, although there is intense opposition to the bill in the senate by republican leaders, including Senators Hale, Aldrich, Frye, Lodge and Crane. These gentlemen will defeat the bill if they can possibly do so without exposing their purpose to do it. The republican leaders of the house have, as is usual in their consideration of statehood matters, relied upon the opposition of the senators, and heretofore these house members have never relied in vain upon the senators. The purpose now seems to be to pass all the great appropriation bills in the house and thus create a congestion of business in the senate. The statehood bill must, of course, give way to any of the great appropriation bills."

"The senate now has before it what is generally known as the railroad bill, one of the pet measures of President Taft. That measure is meeting with intense opposition at the hands of democrats and insurgent republicans. In my opinion this bill will be debated probably for five or six weeks in the senate, and it has already pushed the statehood bill out of its way. President Taft and those leaders whom I have already named are extremely anxious that congress should adjourn now, later than May first. The business of which I have spoken, together with several others of President Taft's pet measures will take up every minute of the senate's time between now and the date on which it is insisted the senate adjourn."

"I sincerely hope the statehood bill will pass, but the best chance I see for its passage is that in the defeat of the fatal amendment of the measure the senate may at least let one of President Taft's suggestions go through in the way he has proclaimed. My hope is that the president's desire to carry out the promises to the people may rally enough republicans, with the full democratic strength to pass the bill."

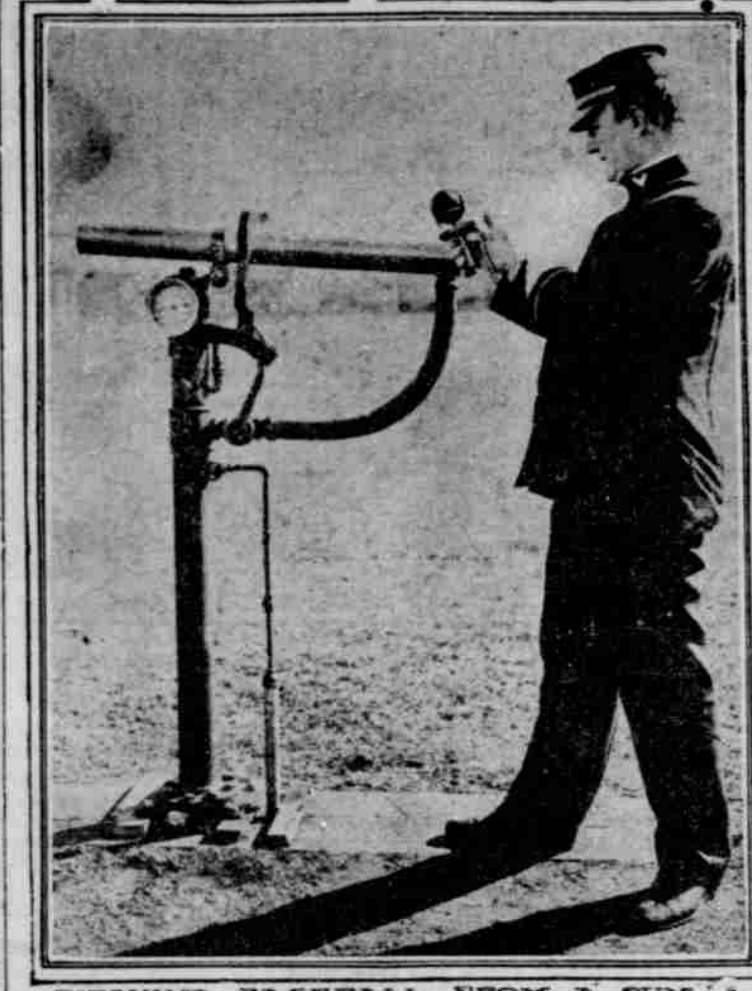

LUCKY TIGER WILL HAVE CYANIDE PLANT

STOCKHOLDERS MEET IN DOUGLAS AND ELECT BOARD OF DIRECTORS.

(Special to Review.) DOUGLAS, March 22.—Stockholders of the Lucky Tiger Mining company, owners of the El Tigre property, concluded a two-day session here today. Five thousand of the 715,000 shares of stock were represented in person. The number of directors were increased from seven to thirteen, two of the old directors being dropped. A new policy is contemplated by the new blood injected into the concern which will tend toward greater development of the Tigre property, to bring out the resources of the diggings.

Among the new improvements will be a cyanide plant, for which the di-

STEEL TRUST IS CHARGED WITH MANY CRIMES

Federation of Labor Presents Case to the Attorney General and Asks for Prosecution Under the Law.

WASHINGTON, March 22.—Federal statements and other documentary evidence to support the charges against the United States Steel Corporation by the American Federation of Labor were presented to Attorney General Wickham today. The evidence follows the petition of the organization to Taft, who referred the whole matter to the attorney general.

Aside from alleging the corporation exists in restraint of commerce and trade, the federation's chief complaint is that it has used various means to prevent labor organizers from working among its employees. Affidavits of organizers, deposing that they had been beaten and ordered out of places where the corporation has mills, are attached to the statement as exhibits. Others declare that labor officers have been unable to hire halls in which to hold meetings and have been intimidated by the local police in steel districts, all of which is charged to the officers of the steel mill by a series of sworn statements. One instance is cited, where it is alleged that employees of a steel mill at North Vandergrift, Pa., were ordered not to buy ice cream of a man who had rented a hall to organizers, and the man was forced out of business.

Part of the argument is an effort to show the steel corporation exists in violation of the Sherman anti-trust law, and certain provisions of the Wilson tariff act. The corporation's ownership of coal and ore lands is said to be part of a monopoly; it is charged with having crushed transportation competition on the great lakes, and in some instances on the railroads. Its acquisition of the Tennessee Coal and Iron company is condemned. Many charges are brought against the corporation's town of Gary, Ind., where, the statement says, the monopoly in all necessities of life is complete and arbitrary prices are charged for everything. Statements of organizers and other officials of the Federation are attached to the charges.

rectors appropriated \$40,000.

The directors elected were as follows: C. Fisher, C. J. Dean, J. D. Fooy, J. D. Peitz, John Kelley, D. J. Hoff, A. H. Vandervelt, O. C. Dodge, C. E. Crannin, W. A. Loebe, H. M. Evans, of Kansas City, and J. P. Stewart, of St. Louis.

Officers will be elected at the next meeting to be held in Kansas City. A large number of the directors will leave tomorrow for an inspection of the Tigre property.

ALLOS LAWYER CALL CHARGE AN INVENTION

Declares Before New York Senate That Whole Thing Is Conspiracy and That Conger Is a Liar.

ALBANY, March 22.—The last words of Senator Aldrich's attorneys before the senate decided whether to sustain the charges that Aldrich took a bribe, were heard today. For five hours Martin Littleton and Lewis Carr addressed the legislators and emptied vials of wrath upon the heads of Aldrich's accuser, Senator Conger. Tomorrow Judge Van Wyck and James Osborne will sum up for Conger.

Littleton opened by comparing the trial to the impeachment proceedings of President Andrew Johnson. Speaking of the check and the story brought in to corroborate Hiram Moore's story of bribery, he declared: "It is a concocted fabrication and as awful, vile, villainous, diabolical conspiracy against Aldrich."

REFUSES TO QUASH.

SANTA ROSA, Cal., March 22.—Judge Sewell late this afternoon overruled the motion of the defense to quash the two indictments in the dynamiting case of Dr. W. P. Burke. Court then adjourned until tomorrow morning, when Burke will plead to the charges in the indictments.

NO INSURGENTS TO HAVE PLACE ON COMMITTEE

Regular Republicans Resolve That New Rules Body Shall Consist of Standpatters and Democrats.

EVIDENT EFFORT TO MAKE VICTORY BARREN

One Insurgent on Committee Would Hold Balance of Power, It Is Said.

WASHINGTON, D. C., March 22.—Through a maze of speculation over the probable personnel of the enlarged rules committee of the house, a slate of the republican membership in that body developed today. Several conferences were held and it is understood the members of the committee may be selected on the geographical basis. The tentative slate is divided into the following groups, one in each group to be chosen:

Dalzell of Pennsylvania, or Smith of Iowa; McCall or Lawrence of Massachusetts, or J. Sloat Fassett of New York; Boutelle of Illinois, or Longworth of Ohio; Young of Michigan or Stevens of Minnesota; Smith of California or Hawley of Oregon or Howell of Utah. From this slate six republican members of the committee of ten may be selected at the republican caucus tomorrow night.

The list does not include a single insurgent republican. The republican leaders take the position that only by rock ribbed stalwart republican membership can the rules committee transact any effective business. They contend the insurgents made a mistake in fixing the membership of the committee at ten instead of some odd number, and that it is plainly impossible to include any insurgent republican. It was said by regular republicans that the inclusion of an insurgent as one of the six would give him as great power as the speaker enjoyed, as he doubtless would consult his insurgent colleagues on every move, and the regulars would have to agree with him or else leave the committee subject to a vote of 5 to 5 in case the insurgent chose to vote with the four democrats. Most of the insurgents disavow any desire for specific representation. Representative Hayes of California, one of the leaders of the insurgents, is accredited by the regulars with the desire for insurgent representation, but the move has taken no definite shape.

NO RECOGNITION DURING DISORDER

WASHINGTON, March 22.—President Madrid of Nicaragua has offered to give the United States every guaranty for the safety of American life and limb in that country, in return for formal recognition of the legality of his government. Senator Cramer, Madrid's representative in Washington, has been in communication with the state department on this subject and today had a long talk with Assistant Secretary Wilson. He told Wilson that England, France and other European nations had already extended such recognition, while Mexico refrained from following suit only out of consideration of the United States. It appears, however, that the obstacle in the way is the insistence of the state department that the last trace of disorder must disappear in Nicaragua before recognition is extended.
